Serrature serie LOQ

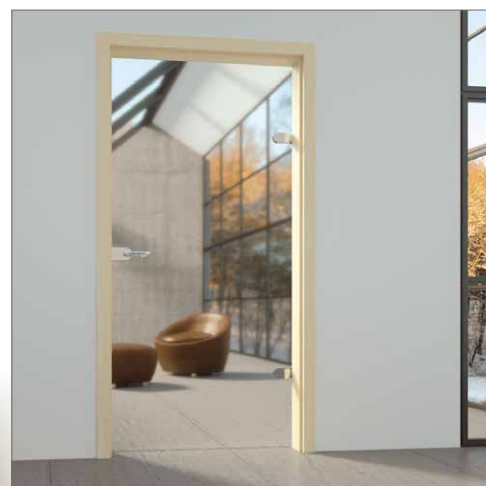

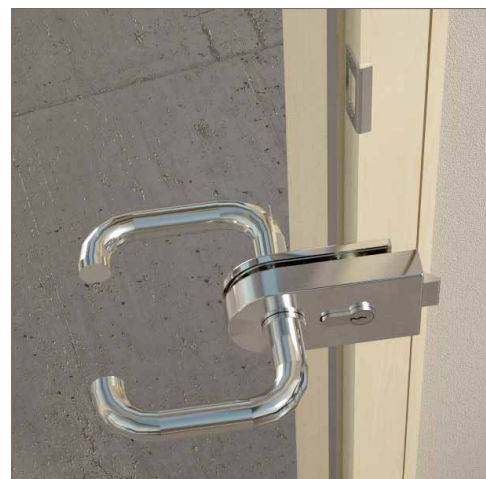

Locks series LOQ

LOQ di Colcom è la nuova linea di serrature per porte in vetro di Colcom, che amplia e completa la gamma già disponibile. La serie LOQ dal design minimale è adatta ad ogni tipo di applicazione in battuta. Forme sottili e linee semplici esaltano il design pulito ed essenziale delle porte in vetro. Ciascuna serratura dispone di meccanismo a scrocco, foro maniglia e relativa controserratura.

La serie LOQ è disponibile in acciaio inox lucido e satinato e nelle finiture standard Colcom. Cilindro e maniglia sono ordinabili separatamente in tre differenti tipologie da scegliere in funzione delle necessità di installazione.

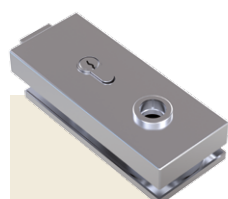

LOQ by Colcom is the new line of locks for glass doors which extends and completes the product range. LOQ series is suitable on any kind of application on a door jamb. Subtle forms and simple lines emphasize its design on glass doors. Each lock has a latch mechanism, handle hole and a safety lock.

LOQ series is available polished stainless steel and satin according to Colcom's standard finishes. Cylinder and handle can be ordered separately in three different types which can be chosen according to installation needs.

Silenziosità ed affidabilità

Caratteristiche peculiari della serie LOQ sono la straordinaria silenziosità e la grande precisione in chiusura grazie alle quali la fluidità di movimento viene trasmessa alla maniglia, alla chiave ed allo scrocco.

Nelle serrature della serie LOQ, tecnologia, funzionalità e de-sign creano un perfetto equilibrio applicativo in casa ed ufficio.

Softness and reliability

The great softness and closing precision are the peculiar characteristics of series LOQ with the handle, key and safety lock moving fluidity.

Technology, functionality and design in LOQ series locks create a perfect balance both at home and in the office.

ES

Cerraduras Serie LOQ

LOQ de Colcom es la nueva línea de cerraduras de Colcom para puertas de vidrio, que se extiende y completa la gama ya disponible. La serie LOQ – con diseño minimalista – es adecuado para cualquier tipo de aplicación de puerta con tope.

Formas sutiles y líneas simples realzan el diseño limpio de la puerta de cristal. Cada cerradura tiene un mecanismo de enganche, manilla con agujero y ceradero.

La serie LOQ está disponible en acero brillo y satinado y en todos los acabados habituales de Colcom. Cilindro y manilla son a petición – en tres modelos diferentes para elegir en función de las necesidades de la instalación.

Funcionamiento y fiabilidad

Las características únicas de la serie LOQ son la extraordinaria "tranquilidad" y alta precisión en el cierre gracias a la cual la fluidez de movimiento se transmite a manija, llave y pestillo.

Cerraduras de la serie LOQ, tecnología, funcionalidad y diseño – crean una aplicación de equilibrio perfecto en el hogar y en la oficina.

FR

Nouvelles gammes de serrures - Série LOQ

LOQ est une nouvelle ligne de serrures pour portes en verre, qui vient compléter la gamme existante. La série LOQ est disponible pour tout type d'application.

Ses lignes discrètes et simples laissent la place à la transparence du verre. Chaque serrure contient un mécanisme à pêne, un trou pour la poignée et un verrou de sécurité.

La série LOQ est disponible en inox brillant ou satiné et dans toutes les finitions standard Colcom. Le cylindre et la poignée peuvent être commandés séparément selon 3 configurations, qui peuvent être choisies en fonction des besoins.

Douceur et fiabilité

Une grande douceur et une précision de fermeture sont les principaux atouts de la série LOQ, tout comme la poignée, les clés et le verrou de sécurité qui offrent de la fluidité dans le mouvement.

La technologie, la fonctionnalité et le design des serrures LOQ offrent un produit modulable pour tout type de bâtiment (maison ou bureau).

DE

Schlösser Serie LOQ

LOQ von Colcom ist eine neue Produktlinie von Glastürschlössern, die das Produktsortiment erweitern und vervollständigen. Die LOQ Serie ist für jede Anwendung und jeden Türrahmen passend.

Feine Formen und einfache Linien unterstreichen das Design an der Glastür. Jedes Schloss hat einen Fallenmechanismus, eine Drückvorrichtung und eine Sicherheitsverriegelung.

Die Serie LOQ ist in Edelstahl glänzend und satiniert verfügbar, sowie in den gewöhnlichen Oberflächen Colcom. Zylinder und Drückergarnituren, können in drei verschiedenen Ausführungen je nach Einbausituation, entsprechend bestellt werden.

Sanft und zuverlässig

Die besonderen Eigenschaften der LOQ Serie sind die Leichtigkeit und Präzision des Schließmechanismus, bei dem der Griff, der Schlüssel und das Sicherheitsschloss sich fließend anpassen.

Die Technik, die Funktionalität und das Design der LOQ Schlösser, stellen eine perfekte Balance dar, sei es in privaten Räumen oder Büros.
